INDEPENDENT AUDITORS' REPORT

Board of Directors Los Angeles Gateway Region Integrated Regional Water Management Joint Powers Authority Signal Hill, California

We have audited the accompanying financial statements of the governmental activities and major fund of the Los Angeles Gateway Region Integrated Regional Water Management Joint Powers Authority (the Authority), as of and for the year ended June 30, 2012, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and major fund of the Authority as of June 30, 2012, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated March 29, 2013 on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be considered in assessing the results of our audit.

The management's discussion and analysis, and the budgetary comparison schedule, identified as required supplementary information in the table of contents, are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. This information is an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the management's discussion and analysis in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison schedule and related note have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

White Nelson Diehl (upros) UP

Irvine, California March 29, 2013

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2012

As management of the Los Angeles Gateway Region Integrated Regional Water Management Joint Powers Authority (the Authority), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2012. Please read it in conjunction with the financial statements, which follow this section.

Financial Highlights

- The assets of the Authority exceeded its liabilities, at June 30, 2012, by \$935,487 (*net assets*). The *unrestricted net assets* may be used to meet the Authority's ongoing obligations to creditors.
- As of June 30, 2012, the Authority's governmental fund reported a positive ending fund balance of \$750,329. (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$750,329.

Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all the Authority's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2012

Government-wide financial statements (Continued)

The statement of activities presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying events giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The government-wide financial statements present information about the functions of the Authority that are principally supported by contribution from member cities (*governmental activities*). The governmental activities of the Authority focus on the regional water planning needs in the Gateway Cities Region. The coalition is currently comprised of 19 cities and government entities. They are Cities of Bell Gardens, Bellflower, Cerritos, Commerce, Downey, Lakewood, Long Beach, Lynwood, Norwalk, Paramount, Pico Rivera, Santa Fe Springs, Signal Hill, South Gate, Vernon, Whittier, Central Basin Municipal Water Agency, Long Beach Water Department, and Southeast Water Coalition.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances on spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of a governmental fund is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may be better understanding the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

See independent auditors' report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2012

Fund financial statements (Continued)

The Authority maintains one governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund. The Authority did not have any other funds.

The Authority adopts an annual appropriated budget for its General Fund. The budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* consisting of budgetary comparison schedule for the general fund.

Government-wide Financial Analysis

The assets for the Authority exceeded liabilities by \$935,487 at June 30, 2012. The government-wide financial statements provide long-term and short-term information about the Authority's overall financial condition. This analysis addressed the financial statements of the Authority as a whole.

The following summaries of net assets and change in net assets are presented for the current and prior year.

Governmental Activities

	Statement of Net Assets					
		2012	2011			
Assets: Current and other assets	\$	1,206,476	\$	1,749,184		
Total Assets		1,206,476		1,749,184		
Liabilities: Current liabilities		270,989		1,749,537		
Total Liabilities		270,989	-	1,749,537		
Net Assets: Unrestricted		935,487		(353)		
Total Net Assets	\$	935,487	\$	(353)		

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2012

Government-wide Financial Analysis (Continued)

Governmental Activities Changes in Net Assets

Revenues: Program Revenues: Charges for services		2012	2011
		636,669 \$	744,024
Operating Grants and Contributions		2,487,321	6,778,047
Total Revenues		3,123,990	7,522,071
Expenses: Governmental activities:			
Regional water management Total Expenses		2,188,150 2,188,150	7,931,067 7,931,067
Change in Net Assets		935,840	(408,996)
Net Assets (Deficit) - Beginning of Year		(353)	408,643
Net Assets (Deficit) - End of Year	\$	935,487 \$	(353)

The most significant revenues of the governmental activities are operating grants and contributions (79.62%). Charges for services are 20.38%.

The expenditures incurred by the Authority are all directly related to the overall regional water management (consulting fees, construction cost, meeting fee, etc.) and the L.A. River Catch Basin Retrofit Project.

Financial Analysis of the Government's Funds

As noted earlier, the Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Authority's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Authority's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of government's net resources available for spending at the end of the fiscal year. See independent auditors' report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2012

General Fund Budget Highlights

Differences between the original budget and the final amended budget are briefly summarized as follows:

- Total revenues projected were \$819,038. Actual revenues for membership fees were \$451,511, causing an unfavorable variance of \$367,527.
- Actual amount for intergovernmental revenues were \$2,478,312 which was American Recovery and Reinvestment Act of 2009 (*ARRA*) Grant.
- Actual expenditures were \$1,579,080 higher than the adopted budget of \$609,070 because of L.A. River Catch Basin Retrofit Project funded by ARRA Grant.

Capital Assets and Debt Administration

Capital Assets

The Authority has no investment in capital assets for its governmental activities as of June 30, 2012.

Debt Administration

The Authority has no long-term liabilities for its governmental activities as of June 30, 2012.

Economic Factors and Next Year's Budgets

The Authority's Joint Powers agreement requires an annual appropriation from its member agencies. It is anticipated that the individual appropriation will remain at \$15,000 for the fiscal year 2012-2013. Net revenues from this appropriation will be similar to previous years. However, it is estimated that several more cities will join in the coming year. The budget is prepared and adopted in April or May of each year. A super-majority of the board is required to pass a budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

June 30, 2012

Economic Factors and Next Year's Budgets (Continued)

The Gateway Water Management Authority will continue to serve as a fiduciary agency on behalf of individual watersheds and/or sub-watersheds in the Gateway region. Currently, the Authority is currently providing assistance to the Los Cerritos Channel Watershed and the Coyote Creek Watershed Groups through Memorandums of Understanding. The role of the Authority is to collect funds, provide administrative support and enter into contracts for each group. The Authority may expand its role and serve as the lead agency in the development of a Water Management Plan or Enhanced Water Management Plan for Gateway region watershed groups. The Plan is required under the Los Angeles Regional Water Quality Board MS4 Permit. Memorandums of understanding will be developed for each watershed group similar to those for the Los Cerritos Channel and Coyote Creek Watershed Groups. It is anticipated that the individual watershed groups will pay an assessment to cover the costs of project management and the preparation of the Watershed Management Plan.

The Authority is preparing an Integrated Regional Water Management Plan to jointly find common, integrated, and coordinated solutions for the region's water-related issues. The preparation of this Plan is being funded by a \$950,000 planning grant through the California Department of Water Resources and Authority membership fees.

Requests for Information

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, Los Angeles Gateway Region Integrated Regional Water Management Joint Powers Authority, 16401 Paramount Boulevard, Paramount, California 90723.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

a. The Organization:

In July 2007, the Southeast Water Coalition and the Cities of Cerritos, Downey, Lakewood, Long Beach, Norwalk, Paramount, Pico River, Santa Fe Springs, Signal Hill, South Gate, et al. entered into a joint powers agreement creating the Los Angeles Gateway Region Integrated Regional Water Management Joint Powers Authority (the Authority). The purpose of the agreement is to create a regional water management group, as defined in and authorized by the IRWMPA, in order to create a regional water resources management plan that will protect and enhance regional water supplies, and to otherwise further the purposes of the Integrated Regional Water Management Powers Authority (IRWMPA), with respect to the Members' jurisdictional areas. The Authority can also perform other regional responsibilities for water development and management.

The Authority will prepare and/or adopt a regional plan for the management of water resources, and for the implementation and operation of qualified projects or programs, and/or the preparation of qualified reports and studies, as those quoted terms are defined in the IRWMPA. The regional water resources management plan may more specifically address any of the matters set forth in California Water Code Section 10540(c) including, but not limited to, the following: ground water management planning; urban water management planning; the preparation of a water supply assessment; the planning, construction or modification of a flood management project, water recycling project, domestic water supply facility to meet safe drinking water standards, or a drainage water management unit; and/or the implementation of a water, water recharge, water recycling, water supply, water drainage, water conservation or any related urban water management subject within the purview of local or regional water agencies.

The agreement has since been amended to add new members. The Authority's current members are the Central Basin Municipal Water District, Long Beach Water Department and the Cities of Bell Gardens, Bellflower, Cerritos, Commerce, Downey, La Mirada, Lakewood, Long Beach, Lynwood, Norwalk, Paramount, Pico Rivera, Santa Fe Springs, Signal Hill, South Gate, Vernon and Whittier.

The term of the agreement continues until no less than three members remain, or until terminated by unanimous consent, provided that all liabilities of the Authority have been satisfied and all assets have been distributed. Upon termination of the agreement, the assets shall be distributed in a manner determined by a super-majority vote of the Board of Directors.

See independent auditors' report.

NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

b. Measurement Focus and Basis of Accounting:

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the economic resources measurement focus, all assets and liabilities (whether current or noncurrent) associated with their activity are reported. Operating statements present increases (revenues) and decreases (expenses) in total net assets. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the current financial resources measurement focus, only current assets and current liabilities are generally included on their balance sheets. The reported fund balance (net current assets) is considered to be a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Under the modified accrual basis of accounting, revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred.

c. Cash and Investments:

The Authority's cash and investments are pooled with the City of Signal Hill's cash and investments. Investments are stated at fair value (quoted market price or the best available estimate thereof).

d. Deferred Revenues:

Deferred revenues in fund financial statements arise when potential revenue does not meet both the "measureable" and "available" criteria for recognition during the current period.

NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

e. Fund Equity:

Fund balance is reported in the fund statements as follows:

<u>Unassigned Fund Balance</u> - This classification includes the remaining spendable amounts which are not restricted, committed, assigned or nonspendable.

It is the Authority's policy that restricted resources will be applied first, followed by (in order of application) committed, assigned and unassigned resources, in the absence of a formal policy adopted by the Board of Directors.

f. Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

2. CASH AND INVESTMENTS:

Cash and Investments

Cash and investments held at June 30, 2012 consisted of the following:

Equity in City of Signal Hill investment pool <u>\$ 978,750</u>

Equity in Cash and Investment Pool of the City of Signal Hill

The Authority does not have a separate bank account; however, the Authority's cash and investments are maintained in an investment pool managed by the City of Signal Hill. The Authority is a voluntary participant in that pool. This pool is governed by and under the regulatory oversight of the Investment Policy adopted by the City Council of the City of Signal Hill. The Authority has not adopted an investment policy separate from that of the City of Signal Hill. The fair value of The Authority's investment in this pool is reported in the accompanying financial statements at amounts based upon The Authority's pro-rata share of the fair value calculated by the City for the entire City portfolio. The balance available for withdrawal is based on the accounting records maintained by the City, which are recorded on an original cost basis.

See independent auditors' report.

NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

June 30, 2012

2. CASH AND INVESTMENTS (CONTINUED):

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment is, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City of Signal Hill manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about The Authority's exposure to interest rate risk as a result of its equity in the cash and investment pool of the City of Signal Hill is provided by disclosures in the notes to the basic financial statements of the City of Signal Hill that shows the distribution of the City's investments by maturity.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Minimum ratings required by (where applicable) the California Government Code and the City of Signal Hill's Investment Policy and the actual ratings as of year-end for each investment type are provided by disclosures in the notes to the basic financial statements of the City of Signal Hill.

Concentration of Credit Risk

Investments in any one issuer (other than U.S. Treasury securities, mutual funds and investment pools) that represent 5% or more of total investments for the entire entity (or for each separate major fund or for other governmental funds in the aggregate) are disclosed in the notes to the basic financial statements of the City of Signal Hill.

Custodial Credit Risk

The Authority does not have any significant certificates of deposit or demand accounts that are subject to custodial credit risk disclosure (as defined by GASB Statement No. 40). The Authority does not have direct investments in securities subject to custodial credit risk disclosure (as defined by GASB Statement No. 40).

See independent auditors' report.

NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

June 30, 2012

3. EXCESS EXPENDITURES:

The following expenditures were in excess of appropriations within the general fund:

	App	Actual Appropriations Expenditures			Variance	
Professional services L.A. River Catch Basin	\$	193,330	\$	224,739	\$	(31,409)
retrofit		-		1,743,503		(1,743,503)

4. COMMITMENTS:

In August 2009, the Authority entered into a \$10,000,000 grant agreement with the California State Water Resources Control Board to fund the L.A. County Catch Basin Retrofit Project (the Project). The installed Project equipment is to be maintained for a period of twenty years after the completion of the Project (through October 31, 2031). The Authority's member cities have committed to the 20-year maintenance period and have signed agreements with Los Angeles County which establish a minimum standard for maintenance of the Project equipment. The Project equipment has not been capitalized by the Authority since it is each member cities' responsibility to budget funds for the maintenance of the Project equipment located within their jurisdiction.

5. SUBSEQUENT EVENTS:

In preparing these financial statements, the Authority has evaluated events and transactions for potential recognition or disclosure through March 29, 2013, the date the financial statements were available to be issued.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2012

A. GENERAL BUDGET POLICIES:

The Board of Directors adopts an annual budget, which begins on July 1. Annual appropriations are approved by the Board of Directors prior to the beginning of each year or shortly thereafter. All appropriations lapse at year-end. The Board of Directors has the legal authority to amend the budget at any time during the fiscal year. The grant revenues and project expenditures related to the L.A. River Catch Basin Retrofit Project were not budgeted.
